TITLE Kentucky School and District Accountability Results. Accountability Cycle 3 (1994-95 to 1997-98). Briefing Packet.

INSTITUTION Kentucky State Dept. of Education, Frankfort.

PUB DATE 1998-00-00

NOTE 285p.

PUB TYPE Numerical/Quantitative Data (110)

EDRS PRICE EDRS Price MF01 Plus Postage. PC Not Available from EDRS.

DESCRIPTORS Academic Achievement; *Accountability; Achievement Tests; Elementary Secondary Education; School Districts; Schools; State Programs; Tables (Data); *Test Results; Testing Programs

IDENTIFIERS Kentucky; *Kentucky Instructional Results Information System

ABSTRACT

This briefing packet contains data on the school and district accountability results for Kentucky's state assessment system, the Kentucky Instructional Results Information System, for 1994-1995 through its last use in 1997-1998. The first section contains state and regional accountability indices by grade level, with number of students tested and the number and percent of schools in each accountability category by grade. The second section contains state and regional scores by subject for the elementary, middle, and high school levels. The third section contains background information on the assessment and its designated successor, the Commonwealth Accountability Testing System, which will incorporate results from the Comprehensive Tests of Basic Skills (CTBS). Attached are tables of results of CTBS/5 survey edition administration in 1997-1998 for Kentucky schools and districts and results for schools and districts for accountability cycle 3 of the KIRIS. (Contains seven tables, three charts, and two multiple-page tables of test results.) (SLD)

Kentucky School and District Accountability Results

**Accountability Cycle 3
(1994-95 to 1997-98)**

**STATE AND REGIONAL
ACCOUNTABILITY INDICES**

TABLE 1
ACCOUNTABILITY INDICES
STATEWIDE AVERAGE, BY GRADE LEVEL
ACCOUNTABILITY CYCLE 3 (1994-95 TO 1997-98)

	Baseline	1996-98 Growth Index	Improvement Goal	Gain
Elementary	45.6	48.9	51.0	3.3
Middle	43.4	44.8	49.1	1.4
High	44.2	50.8	49.8	6.6
All Grades	44.4	48.0	50.0	3.6

Note: Elementary is grades 4 and 5, Middle is grades 7 and 8 and High is grades 11 and 12.

TABLE 1A
NUMBER OF STUDENTS AND SCHOOLS TESTED,
ACCOUNTABILITY CYCLE 3 (1994-95 TO 1997-98)

	Grades 4 & 5	Grades 4/5 & 7/8	Grades 7 & 8	Grades 7/8 & 11/12	Grades 11/12	Grades P/12	TOTAL
Number of Students Tested ¹	46,805	*	49,608	*	40,928	*	137,341
Number of Schools in Accountability System ²	656	105	193	31	199	4	1,188

¹ Number of students who participated in the Reading On-Demand test, plus students who participated in the alternate portfolio program.

² Includes only schools in existence at the close of the 1997-98 school year.

* Students included in Grade 4/5, 7/8, or 11/12 totals.

TABLE 2
REGIONAL AND STATE ACCOUNTABILITY INDICES
ACCOUNTABILITY CYCLE 3 (1994-95 TO 1997-98), BY GRADE LEVEL

Elementary		1996-98			Expected Gain
	Baseline	Growth Index	Improvement Goal	Gain	(Improvement Goal Minus Baseline)
REGION 1	45.3	48.8	50.8	3.5	5.5
REGION 2	46.7	50.8	52.0	4.1	5.3
REGION 3	44.6	47.2	50.1	2.6	5.5
REGION 4	46.8	51.1	52.1	4.3	5.3
REGION 5	47.5	51.0	52.8	3.5	5.3
REGION 6	44.0	46.8	49.6	2.8	5.6
REGION 7	45.5	48.4	51.0	2.9	5.5
REGION 8	42.8	43.9	48.5	1.1	5.7
STATEWIDE	45.6	48.9	51.0	3.3	5.4

Middle		1996-98			Expected Gain
	Baseline	Growth Index	Improvement Goal	Gain	(Improvement Goal Minus Baseline)
REGION 1	44.5	46.1	50.1	1.6	5.6
REGION 2	44.4	47.2	50.0	2.8	5.6
REGION 3	39.1	40.3	45.2	1.2	6.1
REGION 4	45.2	47.5	50.7	2.3	5.5
REGION 5	45.9	46.9	51.3	1.0	5.4
REGION 6	42.3	42.4	48.1	0.1	5.8
REGION 7	43.1	44.3	48.8	1.2	5.7
REGION 8	41.6	41.4	47.4	-0.2	5.8
STATEWIDE	43.4	44.8	49.1	1.4	5.7

High		1996-98			Expected Gain
	Baseline	Growth Index	Improvement Goal	Gain	(Improvement Goal Minus Baseline)
REGION 1	46.8	51.7	52.1	4.9	5.3
REGION 2	44.7	52.9	50.2	8.2	5.5
REGION 3	41.8	49.9	47.6	8.1	5.8
REGION 4	46.6	53.5	51.9	6.9	5.3
REGION 5	46.0	53.3	51.4	7.3	5.4
REGION 6	42.7	47.2	48.4	4.5	5.7
REGION 7	43.2	48.1	48.9	4.9	5.7
REGION 8	39.9	46.3	45.9	6.4	6.0
STATEWIDE	44.2	50.8	49.8	6.6	5.6

Note: Elementary is grades 4 and 5, Middle is grades 7 and 8 and High is grades 11 and 12.

TABLE 3

Kentucky School and District Accountability Results

**Accountability Cycle 3
(1994-95 to 1997-98)**

BACKGROUND INFORMATION

ASSESSMENT Q&A

What is KIRIS?

Kentucky has been using a statewide assessment to determine the degree to which schools and districts are improving the effectiveness of their educational programs. This assessment, called the Kentucky Instructional Results Information System, or KIRIS, was used for the last time in 1997-98. It established each school's individual baseline score -- its starting point -- and each school's own academic goal for each accountability period -- its "finish line." Schools that go beyond their finish lines are eligible for a double share of rewards. Schools that drop behind their starting point are eligible for help in the form of additional funding and highly skilled educators who are available to the school team to help them develop and implement strategies to become more effective.

Why do we have rewards and assistance?

The core of Kentucky's education system is school accountability -- schools are accountable for how well their students perform, just as schools hold students accountable for their learning. The purpose of accountability is to focus each entire school on the goal of dramatic improvement in student learning. Rewards and assistance provide incentives for districts, schools and teachers to make progress toward specific goals, as measured by KIRIS.

What is CATS?

CATS is the Commonwealth Accountability Testing System mandated by the passage of House Bill 53 in the spring of 1998. This bill directed the completion of KIRIS and the design of a new and better assessment and accountability system. The assessment includes administering the CTBS-5 Survey Edition in grades 3, 6 and 9 in reading, language arts and mathematics. It also includes an assessment more specific to Kentucky's Core Content Tests in grades 4, 5, 7, 8, 10, 11 and 12. This will be administered the first time April 19-30, 1999.

Who will be tested beginning in Spring 1999?

Beginning in 1998-99, the assessment will be distributed over more grades. The assessment includes 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th and 12th graders. Students in grades 3, 6 and 9 will take a test allowing national comparisons (norm referenced test) in Reading, Language Arts and Math. Students in grades 4 and 7 will take assessments to measure a student's progress toward standards in reading, writing and science. Similar tests will be given in grades 5 and 8 for mathematics, social studies, arts & humanities and practical living/vocational studies. Grade 10 will be assessed in reading and practical living/vocational studies; Grade 11 in mathematics, science, social studies and arts and humanities; Grade 12 will take the on demand writing test and complete a writing portfolio.

What quality control measures have been taken to ensure that the scores are accurately reported?

The 1996-97 and 1997-98 KIRIS results have been subjected to more stringent quality control measures than ever before. These quality control measures included more extensive monitoring of scoring consistency and multiple independent replications of results for equating (the statistical procedure of making scores from 1997-1998 comparable to 1995-1996, even though not all test items are the same).

What content does KIRIS test?

Knowledge of both the traditional basics and higher order thinking skills are tested. Unlike many other assessments, however, KIRIS also tests what students can do with the basics. Subjects included in the test are reading, math, science, writing, social studies, arts and humanities and practical living/vocational studies.

To help schools align their curricula with the KIRIS assessment, the Department of Education has sent Core Content guidelines to every public school and district in Kentucky. This document provides more direction to teachers for deciding what content to teach. It is a direct response to requests from teachers for a sharper focus on the knowledge and skills that will be tested by KIRIS.

How are KIRIS and CATS assessments different from the tests students took in the 1960's, 1970's and 1980's?

Tests from the past tended to test student ability to recall facts or specific information. They did not measure a student's ability to understand, reason or communicate. Perhaps the major difference is that Kentucky's assessment asks students not only to provide correct answers, but also to explain how they arrive at their answers. This gives students the opportunity to show that they understand the underlying concepts behind the basic facts and how the knowledge can be used in the real world.

The assessments consist of several different kinds of tests:

- "open-response" questions are like the essay questions many parents answered when they were in school
- "writing prompts" are similar to essay questions, but students are given a larger block of time -- typically 90 minutes -- to respond to a single question in greater detail than with a typical essay question
- multiple-choice questions allow students to select from a certain number of given responses, one of which is correct
- writing portfolios are compiled throughout the student's school career and consist of examples of the student's best written work over time

What are the performance levels assigned to students?

Four performance levels are used to categorize the performance of individual students. These are, in rising order of skill and understanding, Novice, Apprentice, Proficient and Distinguished.

How will we know how well Kentucky's students are doing compared with students across the country?

Kentucky routinely participates in the National Assessment of Educational Progress (NAEP), a congressionally authorized testing program administered by the National Center for Educational Statistics (NCES). The most recent NAEP test results show that Kentucky's students are at about the national average in reading, mathematics and science. There have been significant gains in the number of students scoring at the NAEP "proficient" level in reading and mathematics, the two areas where longitudinal data are available. In addition, beginning in the spring of 1997, Kentucky has added to its testing system a national, norm-referenced standardized test, the CTBS-5, to measure student performance in language arts, reading and mathematics. Students leaving the Primary program and those in grades 6 and 9 will take this test annually. The test will provide a point of reference for comparing Kentucky's students to a national reference group.

November 1998

NOTES ON INTERPRETING RESULTS

Margin of Error in Accountability Index Scores

Figures reported in KIRIS reports and summaries reflect the performance of students on questions used in KIRIS tests. Slightly different results might have been obtained if different questions were used. In addition, because year to year differences exist in students at a given grade level, some variation in accountability index scores is due to the particular group of students taking the test each year. Variability in scores due to the questions selected and the students taking the test has been studied by KDE. (Based on data from Accountability Cycle 3, for a school with 100 students taking the KIRIS test, we are 95% confident that the range of reported scores is within +/- 3 points.)

Changes in Test Administration from 1995-96 through 1997-1998

Test score gains should be viewed with an understanding that test administration changed from 1995-96 to 1996-97. 1997-98 administration was the same as 1996-97. Most importantly, grade 4 and 8 students took fewer content area tests in 1997 and 1998, sharing the test taking burden with grade 5 and 7 students. In addition, schools were permitted to administer each content area test in up to three separate sessions. Students also answered multiple choice questions at the same time as open-response questions in 1996-97 and 1997-98, which is different from open-response only testing in 1995-96. The scores are computed using open-response results only. The multiple choice results are being reported but are not used in the calculation of final school or student scores.

Rewards and Assistance

Because of the 1998 passage of House Bill 53 directing changes in our future assessment system, these results represent the end of KIRIS assessment. HB 53 also directed that rewards and assistance be administered differently at the close of this cycle 3. The following chart explains the categories and the distribution of rewards and assistance.

KIRIS ACCOUNTABILITY CYCLE 3 PERFORMANCE JUDGMENTS

<i>Growth Index</i> (1996-1997 / 1997-1998)	Performance Judgment	Reward Share Status	School Improvement Plan	Commonwealth School Improvement Funds	Highly Skilled Educational Assistance	HB53 [Section 19 (4)] Parental Options
Schools that <u>exceed</u> their Improvement Goal	REWARD	2 Shares	NO	NO	NO	NO
Schools that exactly <u>meet</u> their Improvement Goal	REWARD	1 Share	NO	NO	NO	NO
Schools with Growth Index <u>between</u> baseline and the Improvement Goal	REWARD	1 Share	YES	May Apply	NO	NO
Schools with growth that <u>equals</u> their baseline	EQUAL BASELINE	NO	YES	May Apply	NO	NO
Schools with scores that <u>fell less</u> than 5 points below their baseline	DECLINE	NO	YES	May Apply	May Request	NO
Schools with scores that <u>fell</u> 5 points or more below their baseline	DECLINE	NO	YES	May Apply	May Request	Notice Regarding Student Transfer

[illegible]

GLOSSARY OF TERMS FOR KIRIS ASSESSMENT AND ACCOUNTABILITY

Preferred Term	Definition or Description
Academic Index	The index or statistic that describes the school district's success on Learning Goals 1,2,5, and 6 as set forth in KRS 158.6451(1). Learning Goal 1: Students are able to use basic communication and mathematics skills for purposes and situations they will encounter through life. Learning Goal 2: Students shall develop abilities to apply core concept and principles from the seven subject areas to what they will encounter in life. Learning Goal 5: Students shall develop abilities to think/solve problems both in school and in a variety of situations they will encounter in life. Learning Goal 6: Students shall develop abilities to connect and integrate experiences/new knowledge from all subject areas with previously learned information and build on past learning to acquire new information through various media sources.
Academic Index Formula	The formula follows: (Mathematics*.14 + Reading*.14 + Science*.14 + Social Studies*.14 + Writing*.14 + Arts and Humanities*.07 + Practical Living and Social Studies*.07)/.84. NOTE: Dividing by .84 places the Academic Index back on a scale with a minimum of 0 and a maximum of 140.
Accountability Cycle	A four-year period of time of which the first two years furnish the baseline data and the second two years furnish the growth index chart. Succeeding cycles overlap as illustrated here: <i>Accountability Cycle 3</i>= Baseline (1994-95 and 1995-96 data) plus Growth (1996-97 and 1997-98 data). <i>Accountability Cycle 2</i>=Baseline (1992-93 and 1993-94 data) plus Growth (1994-95 and 1995-96 data). <i>Accountability Cycle 1</i>=Baseline (1991-92 data) plus Growth (1992-93 and 1993-94 data.) NOTE: The first Accountability Cycle included only three years of data because the baseline was established using one year (1991-92) of data.
Accountability Index	The statistic that describes the school or school district's status for a given year in pursuit of the academic and noncognitive goals set forth in KRS 158.6451(1). While this scale may be difficult to conceptualize initially, a score of 100 could be a point on the scale at which all students in a school would be classified as proficient in all academic areas assessed, 100% of the students would attend school every day, no students would be retained, no students would drop out, and all students would be successful in their transition to adult life. (Within the academic areas, it is possible for some students' work below the proficient performance level to be compensated by other students' work at the distinguished level.) A theoretically successful student would therefore be defined as one who academically scores at the proficient level, attends school every day, is not retained, does not drop out, and is successful in the transition to adult life. While the Department recognizes this 100% goal may not be immediately attainable, it is a long-range objective of KERA.

GLOSSARY OF TERMS FOR KIRIS ASSESSMENT AND ACCOUNTABILITY

Preferred Term	Definition or Description
Baseline Index	The statistic that describes the school or school district's status for the first two years of a four-year Accountability Cycle (except for Cycle 1). Examples are the following: <i>Baseline Index 3</i> is the statistic that describes the school or school district's status for 1994-96 (the Weighted Average of 1994-95 and 1995-96 data). <i>Baseline Index 2</i> is the statistic that describes the school or school district's statistic for 1992-94. <i>Baseline Index 1</i> is the statistic that describes the school or school district's status for 1991-92.
Combined Growth Index	The statistic that describes the school or school district's status during the second two years of an accountability cycle. It is compared with the corresponding baseline data. Examples follow: <i>Growth Index 3</i> is the statistic that results from calculating the Weighted Average of the 1996-97 and 1997-98 Growth Indices. <i>Growth Index 2</i> is the statistic that results from calculating the Weighted Average of the 1994-95 and 1995-96 Growth Indices. <i>Growth Index 1</i> is the statistic that results from taking the Weighted Average of the 1992-93 and 1993-94 Growth Indices.
Improvement Goal	The result of a formula calculation which compares a school or school district's combined growth index with its baseline index for a given cycle and then factors in an amount of progress as expected by KERA, this statistic describes the amount of growth required of a school or school district during a four-year accountability cycle (formerly called the threshold). Examples follow: <i>Improvement Goal 3</i> is the number calculated which describes the amount of growth required for a school or school district for the 1994-98 Accountability Cycle (Cycle 3). <i>Improvement Goal 2</i> is the number calculated which describes the amount of growth required for a school or school district for the 1992-96 Accountability Cycle (Cycle 2). <i>Improvement Goal 1</i> is the number calculated with describes the amount of growth required for a school or school district for the 1991-94 Accountability Cycle (Cycle 1).
KERA	Acronym for <i>Kentucky Education Reform Act</i> , the statute passed by the Kentucky Legislature in April of 1990.
KIRIS	Acronym for <i>Kentucky Instructional Results Information System</i> , the assessment program used in Kentucky. It is composed of various academic components such as the On-demand Tests, the Writing, Mathematics, and Alternate Portfolios plus a Noncognitive component (attendance rates, retention rates, dropout rates, and successful transition to adult life).
KRS & KAR	KRS: Acronym for <i>Kentucky Revised Statute</i>. A statute is a particular law enacted and established by the will of the Kentucky General Assembly *Example-KRS 158.645(1) (KERA) KAR: Acronym for <i>Kentucky Administrative Regulation</i>. Administrative regulations are issued by various governmental agencies to carry out the intent and ensure uniform application of a statute. A regulation has the force of law. * Example - 703 KAR 3:060 (Procedures for Determining Rewards and Sanctions). *Taken from Henry C. Black, <u>Black's Law Dictionary</u>, 5th ed. West Pub. Co., 1983.
Noncognitive Data	The data used in the KIRIS accountability calculations which is <i>not</i> academic. The data included are attendance rate, retention rate, dropout rate, and rate of successful transition to adult life.

GLOSSARY OF TERMS FOR KIRIS ASSESSMENT AND ACCOUNTABILITY

Preferred Term	Definition or Description
On-Demand Tests	The component of the assessment program that includes open-response questions, on-demand writing prompts, and multiple-choice questions (the latter to be included in accountability calculations beginning in Accountability Cycle 4).
Open-Response Questions	This refers to "open-ended or constructed response questions."
Performance Judgment	The rewards/assistance category in which a school or school district is placed upon comparison of a school or school district's Combined Growth Index to its Improvement Goal for the Accountability Cycle. The categories for performance judgments are explained below: See Performance Judgement Chart on page 30.
Performance Levels	The four levels of achievement defined by the Kentucky Board of Education and used in the KIRIS Assessment Program. The levels are described as follows: Novice: Student may recall some relevant information but shows minimal understanding of core concepts. Student communication is unclear and ineffective. Apprentice: Student demonstrates a knowledge of many core concepts and skills but cannot consistently apply knowledge. Proficient: Student demonstrates a knowledge of major concepts even though she/he overlooks or misunderstands some less obvious ideas or details. Student can apply core concepts and skills to solve problems. Student makes connections among major concepts. Student communicates ideas effectively. Distinguished: Student demonstrates in-depth understanding of concepts and/or processes described in Kentucky's Academic Expectations. Student can solve challenging problems using innovative and efficient strategies. Student makes connections among the ideas beyond the obvious. Student communicates complex ideas effectively. Student makes insightful interpretations or extensions (generalizations, applications, and analogies).
Weighted Average	Baseline and growth index calculations combining two years of data and weighted by the number of students tested each year which contributes to the index. The weighting factor (number tested) is the number of students taking the reading assessment in 4th, 7th, and 11th grades.

MESSAGES:

- District 4/5th, 7/8th, & 11/12th grade summary data are an aggregate of the individual student data from individual schools. District data are weighted by the number of students tested at each grade.
- REWARD LEVEL: 1 = One reward share; 2 = Two reward shares.
- NOTE: * = School's service area changed. The school is held accountable through the district accountability scores.
 ** = School's service area changed. The school has chosen to have its baseline calculated using only the school's 1995-96 score results.
 S = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
 SB = State Board approved school configuration waiver for calculation of accountability scores.

MESSAGES

- District 4/5th, 7/8th, & 11/12th grade summary data are an aggregate of the individual student data from individual schools. District data are weighted by the number of students tested at each grade.
- REWARD LEVEL: 1 = One reward share, 2 = Two reward shares.
- NOTE: * = School's service area changed. The school is held accountable through the district accountability scores.
 ** = School's service area changed. The school has chosen to have its baseline calculated using only the school's 1995-96 score results.
 S = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
 SB = State Board approved school configuration waiver for calculation of accountability scores.

MESSAGES

- District 4/5th, 7/8th, & 11/12th grade summary data are an aggregate of the individual student data from individual schools. District data are weighted by the number of students tested at each grade.
- REWARD LEVEL: 1 = One reward share, 2 = Two reward shares.
- NOTE:
 - * = School's service area changed. The school is held accountable through the district accountability scores.
 - ** = School's service area changed. The school has chosen to have its baseline calculated using only the school's 1995-96 score results.
 - S = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
 - SB = State Board approved school configuration waiver for calculation of accountability scores.

- NOTE: * = School's service area changed. The school is held accountable through the district accountability scores.
 ** = School's service area changed. The school has chosen to have its baseline calculated using only the school's 1995-96 score results.
 S = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
 SB = State Board approved school configuration waiver for calculation of accountability scores.

MESSAGES:

- District 4/5th, 7/8th, & 11/12th grade summary data are an aggregate of the individual student data from individual schools. District data are weighted by the number of students tested at each grade.
- REWARD LEVEL: 1 = One reward share; 2 = Two reward shares.
- NOTE: * = School's service area changed. The school is held accountable through the district accountability scores.
 ** = School's service area changed. The school has chosen to have its baseline calculated using only the school's 1995-96 score results.
 S = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
 SB = State Board approved school configuration waiver for calculation of accountability scores.

MESSAGES:

- District 4/5th, 7/8th, & 11/12th grade summary data are an aggregate of the individual student data from individual schools. District data are weighted by the number of students tested at each grade.
- REWARD LEVEL: 1 = One reward share; 2 = Two reward shares.
- NOTE: * = School's service area changed. The school is held accountable through the district accountability scores.
- ** = School's service area changed. The school has chosen to have its baseline calculated using only the school's 1995-96 score results.
- S = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
- SB = State Board approved school configuration waiver for calculation of accountability scores.

MESSAGES:

- District 4/5th, 7/8th, & 11/12th grade summary data are an aggregate of the individual student data from individual schools. District data are weighted by the number of students tested at each grade.
- REWARD LEVEL 1 = One reward share, 2 = Two reward shares
- NOTE * = School's service area changed The school is held accountable through the district accountability scores.
- ** = School's service area changed The school has chosen to have its baseline calculated using only the school's 1995-96 score results.
- S = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade
- SB = State Board approved school configuration waiver for calculation of accountability scores.

MESSAGES:

- District 4/5th, 7/8th, & 11/12th grade summary data are an aggregate of the individual student data from individual schools. District data are weighted by the number of students tested at each grade.
- REWARD LEVEL: 1 = One reward share; 2 = Two reward shares
- NOTE: * = School's service area changed. The school is held accountable through the district accountability scores.
- ** = School's service area changed. The school has chosen to have its baseline calculated using only the school's 1995-96 score results
- S = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade
- SB = State Board approved school configuration waiver for calculation of accountability scores.

MESSAGES

- District 4/5th, 7/8th, & 11/12th grade summary data are an aggregate of the individual student data from individual schools. District data are weighted by the number of students tested at each grade.
- REWARD LEVEL: 1 = One reward share; 2 = Two reward shares.
- NOTE: * = School's service area changed. The school is held accountable through the district accountability scores.
 ** = School's service area changed. The school has chosen to have its baseline calculated using only the school's 1995-96 score results.
 S = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
 SB = State Board approved school configuration waiver for calculation of accountability scores.

MESSAGES

- District 4/5th, 7/8th, & 11/12th grade summary data are an aggregate of the individual student data from individual schools. District data are weighted by the number of students tested at each grade.
- REWARD LEVEL: 1 = One reward share, 2 = Two reward shares.
- NOTE: * = School's service area changed. The school is held accountable through the district accountability scores.
 ** = School's service area changed. The school has chosen to have its baseline calculated using only the school's 1995-96 score results.
 S = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
 SB = State Board approved school configuration waiver for calculation of accountability scores.

MESSAGES

- District 4/5th, 7/8th, & 11/12th grade summary data are an aggregate of the individual student data from individual schools. District data are weighted by the number of students tested at each grade.
- REWARD LEVEL: 1 = One reward share; 2 = Two reward shares.
- NOTE:
 - * = School's service area changed. The school is held accountable through the district accountability scores.
 - ** = School's service area changed. The school has chosen to have its baseline calculated using only the school's 1995-96 score results.
 - S = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
 - SB = State Board approved school configuration waiver for calculation of accountability scores.

MESSAGES

- District 4/5th, 7/8th, & 11/12th grade summary data are an aggregate of the individual student data from individual schools. District data are weighted by the number of students tested at each grade.
- REWARD LEVEL: 1 = One reward share; 2 = Two reward shares.
- NOTE: * = School's service area changed. The school is held accountable through the district accountability scores.
 ** = School's service area changed. The school has chosen to have its baseline calculated using only the school's 1995-96 score results.
 S = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
 SB = State Board approved school configuration waiver for calculation of accountability scores.

MESSAGES

- District 4/5th, 7/8th, & 11/12th grade summary data are an aggregate of the individual student data from individual schools. District data are weighted by the number of students tested at each grade.
- REWARD LEVEL. 1 = One reward share; 2 = Two reward shares.
- NOTE. * = School's service area changed. The school is held accountable through the district accountability scores.
- ** = School's service area changed. The school has chosen to have its baseline calculated using only the school's 1995-96 score results.
- S = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
- SB = State Board approved school configuration waiver for calculation of accountability scores

MESSAGES:

- District 4/5th, 7/8th, & 11/12th grade summary data are an aggregate of the individual student data from individual schools. District data are weighted by the number of students tested at each grade.
- REWARD LEVEL: 1 = One reward share; 2 = Two reward shares.
- NOTE:
 - * = School's service area changed. The school is held accountable through the district accountability scores.
 - ** = School's service area changed. The school has chosen to have its baseline calculated using only the school's 1995-96 score results.
 - S = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
- SB = State Board approved school configuration waiver for calculation of accountability scores.

MESSAGES:

- District 4/5th, 7/8th, & 11/12th grade summary data are an aggregate of the individual student data from individual schools. District data are weighted by the number of students tested at each grade.
- REWARD LEVEL: 1 = One reward share, 2 = Two reward shares.
- NOTE: * = School's service area changed. The school is held accountable through the district accountability scores.
- ** = School's service area changed. The school has chosen to have its baseline calculated using only the school's 1995-96 score results.
- S = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
- SB = State Board approved school configuration waiver for calculation of accountability scores.

MESSAGES

- District 4/5th, 7/8th, & 11/12th grade summary data are an aggregate of the individual student data from individual schools. District data are weighted by the number of students tested at each grade.
- REWARD LEVEL: 1 = One reward share, 2 = Two reward shares.
- NOTE: * = School's service area changed. The school is held accountable through the district accountability scores.
 ** = School's service area changed. The school has chosen to have its baseline calculated using only the school's 1995-96 score results.
 S = Joint school. School(s) have been combined with another school for accountability purposes because the school does not contain both a 4th and 5th grade or both a 7th and 8th grade.
 SB = State Board approved school configuration waiver for calculation of accountability scores.
